The Woodshop builds quality hand crafted outdoor furniture for sale to the public at very reasonable prices. We offer our furniture with either corrosion resistant hardware or corrosion proof stainless steel hardware. Either will provide many years of use.

Adirondack Collection

Our Adirondack Chairs are modeled after the original design of the chairs found in the Adirondack mountains. They are sturdy and very comfortable. The angle of the seat has been set a little more upright to make it easier to get out of the chair, yet it maintains the feel of this classic style.

Chairs shown here with the Adirondack side table.

Adirondack Settee

This settee features an easily removable middle table (no tools required) that allows chairs to be used individually, as well as making it easier to move/transport the set.

Inset above shows close up of middle table.
